

Dear future Kindergarten families,

We are so excited that your child will be joining us at Mary of Nazareth for Kindergarten next year! Kindergarten is such an exciting year and you can look forward to a ton of growth in your child. We feel so blessed that you have chosen to include us on your child's team during the 2021-2022 school year. In order to prepare your child for the school environment and Kindergarten specifically we have created a fun Summer calendar or suggested activities. These activities will hopefully give families some ideas for what to work on during the Summer months but do not feel limited by what we have put on the calendar. We hope that all of our students are reading for 20 minutes everyday. This can be the child looking at picture books, reading independently if able, being read to by someone else, or even listening to audiobooks or read aloud videos! Kindergarten is a year of tremendous academic growth but it is also fun! Please talk with your child and let them know how excited you are for all of the fun and learning they will get to experience in Kindergarten. We can't wait to see you there!

God Bless,  
Mary of Nazareth Kindergarten Team

# June
