Rising 7th Grade

IXL Math Summer Work: Due August 27, 2021

(Mrs. Sanchez's 6th grade classes)

Each of the ten IXL math skills listed below must be completed to a *Mastery Score* of at least 85%, which will result in a first quarter quiz grade of 100% during the next school year. *Please note that when logging in each time you should double check the skill name, number and grade level* listed below. (Websites get periodically updated - so be sure to rely first and foremost on the skill name). Throughout the summer, the math team will monitor your progress and address any possible IXL website issues you may encounter. You may contact your current math teacher directly using the email address listed above. Please do not use calculators.

Grade Level	Skill Number	Skill Name	Mastery Score of 85% (mandatory)	Highest Mastery Score Achieved (optional)	Date Completed
		<i>EXAMPLE: "Classify Numbers"</i>		92	
6th	R.3	<i>Example</i> Place value in whole numbers	✓	92	07/05/2021
6th	G.1	Add and Subtract Decimals			
6th	O.11	Add, Subtract, Multiply or Divide Two Integers			
6th	O.3	Evaluate numerical expression involving Whole Numbers			
6th	I.8	Convert between improper fractions and mixed numbers			
6th	J.3	Add, Subtract Fractions with Unlike Denominators			
6th	R.5	Identify Equivalent Ratios			
6th	S.4	Convert between Percents, Fractions, and Decimals			
6th	S.10	Percents of numbers and money amounts			
6th	Z.9	Solve one-step addition equations with whole numbers			
6th	X.6	Follow the directions on the coordinate plane
